

# SAVE THE DATE!

Amsterdam 7-9 June, 2016

4th FIG

Young Surveyors European Meeting

European Young Surveyors Together for Tomorrow's Challenges

Held in connection with the Common Visions Conference 2016

## PRELIMINARY PROGRAMME 4th FIG YSEM

7 - 9 June 2016

### Participation in the Common Vision Conference

Tuesday, 7 June 2016

Europe's 5 leading mapping, cadastre and land registry associations and the Netherlands' Cadastre, Land Registry and Mapping Agency - Kadaster welcome you to the official Common Vision Conference. This joint conference will be organised for the first time and will focus on today's issues regarding the future role of mapping, cadastre and land registry agencies. Headed by the overall theme Migration to a Smart World, topics such as marine cadastre, interoperability, smart cities, location infrastructure, inter-connection of land registers, big data and 3D will be addressed.

Maximum 50 Young Surveyors are able to participate in this meeting

### Migration to a Smart World - by a United Young Surveyors Generation

Wednesday, 8 June 2016

#### Registration

##### Opening Ceremony

The 4th FIG Young Surveyors European Meeting will be kicked off with welcome remarks by the representatives of each organisation. This is your opportunity to get to know the delegates.

##### Keynote Session: Poverty Alleviation - our role as Agents of Change in a Smart World

Our keynote speakers will take you on a journey in the developing world. You will hear the challenges we have to face and solve within our generation - *the generation of Agents of Change*. They will share their ideas on poverty alleviation through *Fit For Purpose approaches* and they will invite you to think further and take your role in our smart united generation.

#### Icebreaker & Coffee Break

**Speed Dating** - In this Icebreaker session you will get to know your fellow YS. Be aware to find something you have in common, go and meet as many YS as you can!

##### Session #1 - How to get Smarter - using the newest Geo-technologies in a Smart World?

Now that you have found your soul mate during the Speed Dating session, let's get updated on the newest geo-technology in a Smart World. New technologies are, and will be, used widely in the near future. We, as YS,

Held in connection with the Common Visions Conference 2016

have to be the pioneers of innovation. New technologies will support development but also raise issues concerning privacy and legislation. After learning about the newest geo-technologies, the use of the newest devices will be demonstrated by UNIGIS/SPINlab's Phd students.

### Lunch (food delivery and hanging out at the "fair site" with PhD and sponsors)

#### Session #2 - Learn from the best - Geo-Professional Network Organizations

To become the best, learn from the best. Progressive and influential organizations and institutions will share what makes them good with others as well as share their experience.

It is a unique opportunity to engage with an extensive network of leaders, experts and executives from the public and private sector in presentations. Lively discussion will take place to address state-of-the-art issues in the field of geo-information. It is an opportunity to learn what is most needed on the ground and be informed about the latest technological developments in geoinformation discipline and their application fields.

### Coffee Break

#### Session #3 - Dreaming about entrepreneurship?

Have you always dreamed of running your own business? But never dared to think about it any further? Well, this is the chance to think ahead! StartUps related to surveying and in general geo-information are invited to share their stories with us. They will not hesitate to also share their failures - which are called: *Start-Up Nights*. They will talk about the lessons learned from such an experience, as it definitely was a hard pill to swallow. They will explain how they manage to move forward and what they expect from their future new adventures. Creativity is a necessity for startups, so during this session we will get creative and try to generate some new, special ideas. Let's talk about opportunities, challenges and ideas!

#### Podium Discussion

Reflection on the output of the workshop groups and on the overall programme of the day. Key findings will be discussed with Young Surveyors. Together with two YS podium leaders we will discuss the journey we have taken this day. Did it fulfill your expectations? What did you learn today and in what way will you use this in your (future) career?

### Closing Ceremony

### Dinner

# SAVE THE DATE!

Amsterdam 7-9 June, 2016

## 4th FIG Young Surveyors European Meeting

European Young Surveyors Together for Tomorrow's Challenges

Held in connection with the Common Visions Conference 2016

### Migration to a Smart World - by a United Young Surveyors Generation Thursday, 9 June 2016

#### Opening

#### Workshop on the Networks Future

There is more to come! Gather all the ideas from yesterday's brainstorming and lively discussion and join us to keep on building the YS Network: International, European and National networks will discuss their country-specific situation in pecha-kucha style. Brace yourself for some very informative 60 minutes.

#### Coffee break

Young surveyors will be asked for a short evaluation of the meeting and to share their ideas on National and European level. Besides the upcoming YS events in Helsinki and Istanbul will be discussed.

#### Field Visit
